GRAPHS

There are 4 radar charts that compare relative difference across student profiles by State, Locale, Sector, and Function. Each profile examines % Black/Hispanic, % free/reduced lunch, per-pupil expenditures, and access to internet connection.

TAKEAWAYS

The following profiles seem to be fairly similar in comparison with their relative counterparts: Illinois (State), City (Locale), PreK-12 (Sector), Digital Learning (Function).

Each of these Demographic Profiles has relatively low rates of racial diversity and reduced-lunch eligible students. These Profiles also have relatively high or average access to reliable internet sources.
